There's only one influent sample on each date with no well ID. Even if all three wells are pumping at the same time, it looks like they are taking a sample at one spot. I thought we asked for data on all three wells individually?

Rick,

Attached are the latest results for the three wells at the Washington Works PWS. The GAC appears to be removing all the GenX.

Subject: Updated Map and Spreadsheet for Washington Works Meeting 6/20/18 - to be rescheduled

Good Morning,

I am attaching the updated map and spreadsheet that we will be discussing when this meeting is rescheduled. Thanks.

Kathy
